

## LANAI, HAWAII: HUNTING OVERVIEW

Lanai is home to one of the highest densities of free-range Axis Deer in the world and a naturalized population of trophy Mouflon sheep. Hunters can expect to see hundreds of deer per day. Hunters will spot and stalk either in a large, flat plain known locally as “the Serengeti,” or in the steep mountainous region that is heavily forested along the shores.

Alternatively, for long range shooters, hunters can set up at shooting benches strategically positioned throughout the island. Lanai, Hawaii has a beautifully mild climate year-round, and you will rarely experience temperatures cooler than 65 degrees or warmer than 80 degrees Fahrenheit. Lightweight hunting gear and sturdy boots with gaiters are recommended. Nonstop domestic flights are available into Honolulu with an easy connection to a short internal flight from Honolulu to Lanai City on Hawaiian Airlines.

**AXIS DEER:** hunts are \$3000 per person per day and include one (1) trophy deer and two (2) cull/management deer (three (3) deer total).

**MOUFLON SHEEP:** hunts are available for a \$5000 trophy fee.
